- UI Implementation
- Component Architecture
- Debugging
- Fast Learner

LANGUAGE

Indonesia — Native

English — Basic Technical

PROFESSIONAL SUMMARY

Frontend-focused web developer experienced in building modern web applications using React and Next.js. Skilled in translating UI designs into responsive, production-ready interfaces. Familiar with Laravel-based authentication systems and MVC architecture. Strong problem-solving ability and fast learner.

PROJECT EXPERIENCE

2025

Personal Portfolio Website (Next.js)

- Developed a portfolio website using Next.js with a routing system and modular component structure. Implemented responsive design and deployed it to Vercel for production.

2025

React-Based Web Application

- Built a dynamic React application using reusable components and structured data rendering from JSON sources.

2026

Authentication System with Laravel

- Building a login and registration system using Laravel with form validation and database integration. Implementing MVC concepts and session management for user authentication.
