PROJECT EXPERIENCE

2026
Bogor, Indonesia

Personal Portfolio Website

Developer | Personal Project

Built a personal portfolio website to showcase projects, skills, and achievements in a professional digital format.

- Designed and developed the website using Next.js and reusable components
- Created responsive layouts optimized for desktop and mobile devices
- Deployed and maintained the website on Vercel for public access

2026
Bogor, Indonesia

Web Application Development Projects

Developer | School Projects

Developed multiple web applications for academic projects, including learning platforms, monitoring systems, and catering management solutions.

- Built web features such as user login, registration, and data management
- Customized functionalities based on project requirements
- Applied Laravel and database integration in backend development

2025
Bogor, Indonesia

Smart Lamp Dashboard

Frontend Developer | Academic Group Project

Developed a web dashboard to control and monitor a smart lamp prototype through an interactive interface.

- Built dashboard pages for controlling lamp status and monitoring activity
- Connected the dashboard with IoT devices using MQTT communication
- Collaborated with team members during testing and implementation

2025
Bogor, Indonesia

Task Management System

Frontend Developer | Academic Project

Developed a task management web application to organize daily activities through an interactive user interface.

- Built the application using React, Tailwind CSS, and Redux
- Implemented task creation, filtering, and state management
- Applied responsive design and reusable component structure

EDUCATION

07/2023 - Present | Information Systems, Networks, and Applications

SMK TI BAZMA

Focused on web development, networking, and practical system implementation.

ORGANIZATIONAL EXPERIENCE

Student Council President

SMK TI BAZMA | Nov 2024 – Oct 2025

- Initiated a charity program with the first external distribution activity
- Established a media team account and an entrepreneurship division that continued after the tenure
- Opened the first collaboration with external student councils for internal workshop invitations
- Developed major school event concepts, including HGN, and helped maintain them for future use
- Led monthly report coordination and supported annual Islamic student programs for elementary outreach

Purna Paskibra & District Committee Member

Ciampea District | 2024 – 2025

- Participated in district-level ceremonial activities for national commemorations
- Assisted in training and mentoring junior paskibra members
- Served as PR lead for LPBB Piala Bupati Bogor under PPK Ciampea
- Contributed to youth advocacy events and represented the school in regional activities

Dormitory Supervisor (Mudabbir Asrama)

SMK TI BAZMA | Sep 2025 – Present

- Contribute to dormitory programs and religious events as part of the first generation of dorm supervisors
- Support community activities such as maulid celebrations and other Islamic events
- Help maintain a sustainable stage project that is still used today
- Strengthen leadership, responsibility, and teamwork through daily coordination

Project Lead – Monthly Report OTA

SMK TI BAZMA | May 2025 – Jan 2026

- Designed monthly report concepts to make student submissions easier and more consistent
- Helped develop special report editions, including a published magazine volume
- Supported design work for visual report formats
- Built a reporting structure that connects parent donors and students more effectively
